

EU Candidate Commitment

- 1. Ireland has a critical role in the global movement to regulate online services and platforms. We are asking candidates to prioritise children and young people's safety online and to stand up for all children's rights, if elected. In particular, candidates are asked to commit to advancing children's rights online by ensuring EU law and policy include safely designed digital systems, transparency around algorithms and protection from Child Sexual Abuse material.**
- 2. Candidates are invited also to pledge their commitment to protecting and promoting children's rights through becoming a #ChildRights Champion, as part of a Europe wide Vote for Children campaign. Details of the manifesto and pledge can be accessed at www.childrightsmanifesto.eu/manifesto**
